Introduction

The following document outlines the steps to register DataBase Integrator Pro

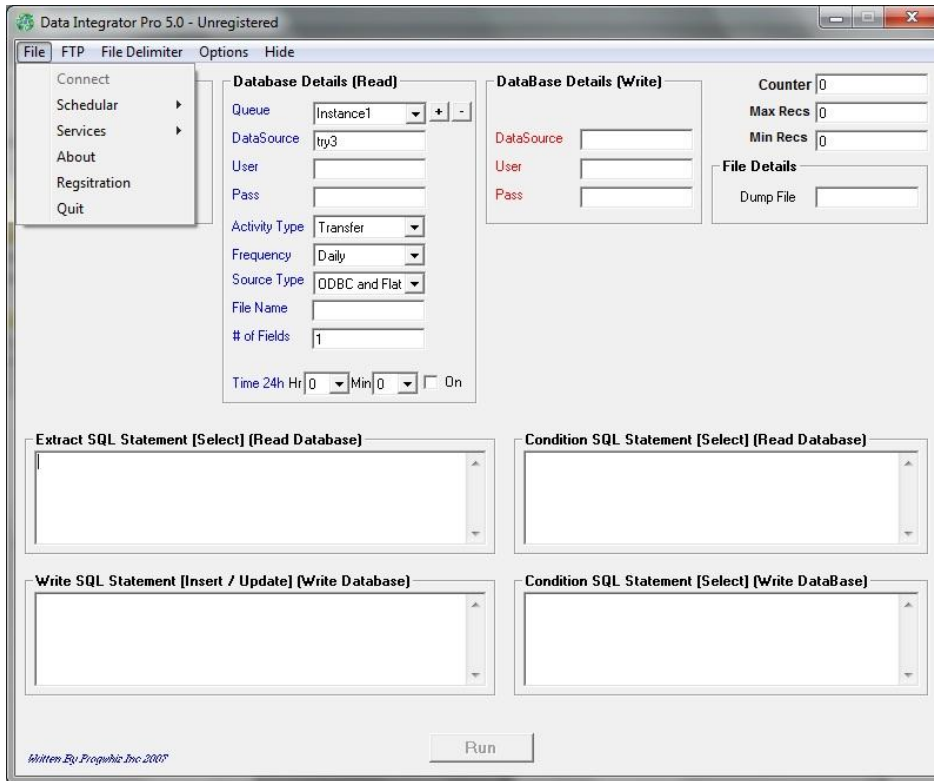

Registration Steps

Step 1

After placing your Order you will receive within 1 working day an attachment of a file called **Reg.rar**. Please uncompress the contents into your installation folder.

Step 2

Launch the application and navigate the menu's shown in the screenshots below:

Step 3

Select the Registration Menu Option

A screenshot of a 'Registration' window. The window has a title bar with a close button (X). Inside, there are two empty text input fields. To the right of the top field is a 'Generate ID' button. Below the bottom field is a 'Register' button.

Step 4

Press generate Button

A screenshot of the 'Registration' window. The top text input field now contains the alphanumeric string '6D25-5A42-3B03-A95A'. The 'Generate ID' button is now disabled (greyed out). The 'Register' button remains active.

Step 5

Email the ID Generated to info@progwhiz.com

Step 6

Enter the Registration code you receive via email within 1 working day after sending the information in Step 5

A screenshot of the 'Registration' window. The top text input field contains '6D25-5A42-3B03-A95A'. The bottom text input field contains a long alphanumeric string: 'i5073575952706952687165618471748164'. The 'Generate ID' button is disabled, and the 'Register' button is active.

Step 7

Press the Register Button
