

Progwhiz Software

Registration Steps

The following illustrates the steps to have your Robotics Software Registered.

Step 1

Launch the Robotics Software and Click on About menu item and select 'Registration'. The dialogue shown in Fig 2 appears. Then Click 'Generate'.

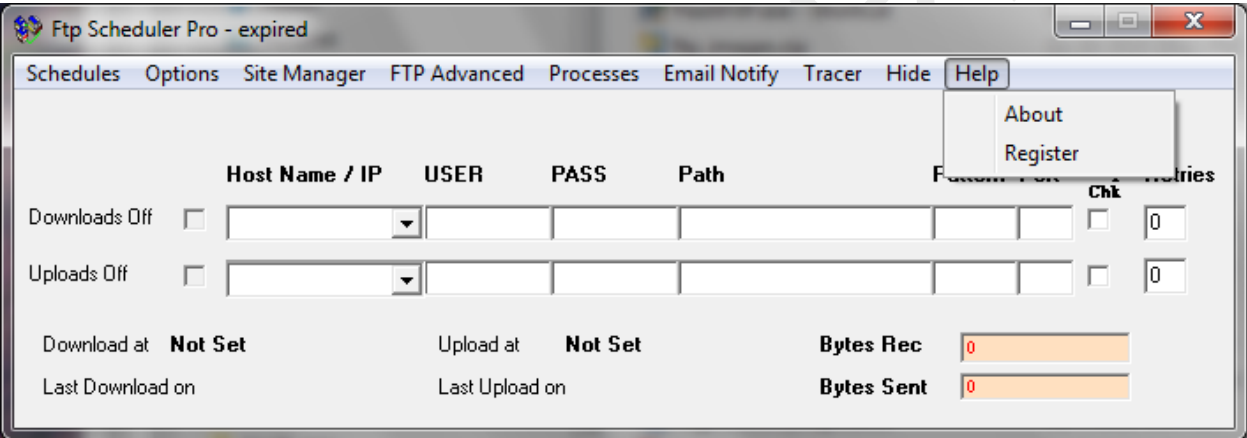

Fig 1

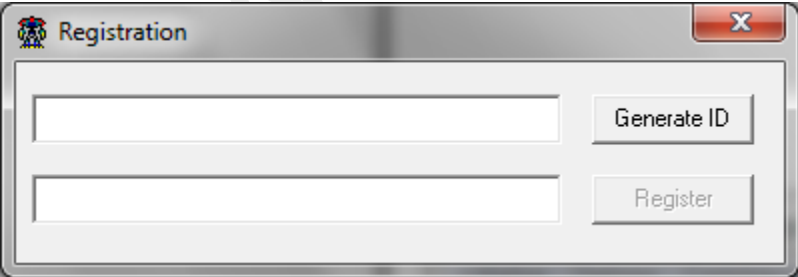

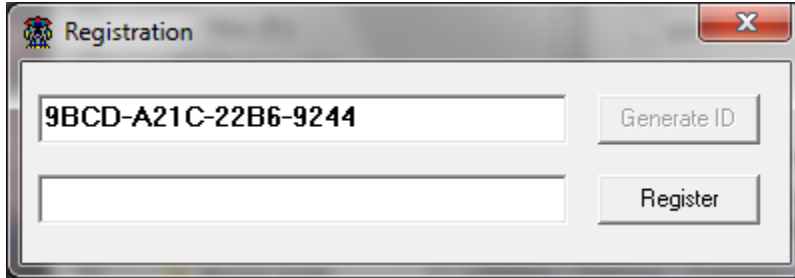

Fig 2

Step 2

Copy the Alphanumeric string including the dashes and email to info@progwhiz.com along with your purchase/order#.

The screenshot shows a window titled "Registration" with a close button (X) in the top right corner. It contains two text input fields and two buttons. The top text field contains the alphanumeric string "9BCD-A21C-22B6-9244". To its right is a button labeled "Generate ID". Below the first field is a second, empty text field. To its right is a button labeled "Register".

Step 3

An email will be dispatched by info@progwhiz.com with the Registration#. Please copy and paste in the textbox shown below and Click '**Register**'.

The screenshot shows the same "Registration" window. The top text field still contains "9BCD-A21C-22B6-9244". The "Generate ID" button is now disabled. The second text field now contains a long alphanumeric string: "85860727177575671626978637760717174". The "Register" button is now enabled.
